

TAKE THEIR MONEY and MEDIA MONOPOLY

To take their power we will have to TAKE THEIR MONEY and MEDIA MONOPOLY away. That is just truth. Until then, this will continue regardless. The fact is it is harder to infiltrate the WORKING RURAL POOR than any other group in America. The Elite have nothing but hatred for them, and the coloreds are terrified to be alone with them 5' outside of town.

Any movement that gains their loyalty has 35 million White Americans who will agree that 'American' means WHITE. Whites with NOTHING to lose and everything to gain by Ethno-State. They are not just going to fall down and kowtow to the movement -- SEE 'Village of the Damned' FAILURE.

No.

To gain these people will require a LOT more than

fancy word play or silly rallies that amount to NOTHING that they can eat, wear or use. They require results. Real world measurable results. Results determine the Right to Rule.

The only viable option is to be go low, be silent, grow in darkness and BUILD capital/money/wealth in groups based on HIERARCHY not liberty or other nonsense that only results in herding cats. Use this capital to build up FINANCIAL POWER, upon which to build rural local industries.

Then use this to drive our advantage of local -- the Center of the USA is about 90%+ White -- and control of the resources there in -- say it: Rural Working Poor + resources + organization = Material upon which to meaningfully resist PC Diversity. And for this to work is must be a broad based mass movement not a hobby.

From their strong backs and stout hearts will come

the redemption of the White Race in this World --
Then we have a fighting chance. Rallies and small
beans big show 'runs' and 'drives' are nostalgia
from another time which are doomed to failure on
the counts that we do not control our own finances
nor our own image or message among the masses.
Take back control of these two vital things even
locally -- then we have meaningfully taken back our
lives from the ZOG.

***Some Random Alt Right Thoughts Round
15 American Citizenship != America...***

Just a middle aged man babbling for several
minutes about how White is

American and American is White. The rest of the rabble are CITIZENS not Nationals. The difference is critical. One is an organic growth that is produced by the natural means of birth among a kind as part of a living people. The other a civic status awarded by a state. Nations exist prior to statehood ... states have no existence apart from nations. Ideally the 'people' and the nation are co-identical.

Human Rights as Chimera

Just a middle aged man babbling for several minutes about how human rights are a chimera that have NO substance. They are meant to force WHITES to accept 'equality' with lesser beings and/or to force us to tolerate cultures that are simply vastly inferior to our own. Outside America in the rest of the Anglo Saxon World the Human Rights Regime is a form of soft totalitarianism in that you are LEGALLY REQUIRED to pretend that equality is a biological fact. None of the coward politicians will ever stand up to the PC REGIME as they are terrified of becoming a victim of the Red Terror that is a Human Rights Commission.

This is our morning.

Such do we deal with daily.

The Basic Ideas behind the Organic Theory of Society

By A Voice Crying in the Wilderness.

The iron reality is that all human beings are born into a familial

group of a mother and a father as a child. These parents ideally share

unequal responsibility in the management of a home, which has a

hearth and who give to the new child a heritage.

This home, is part

of a people who have a community, a history and a shared culture.

The people and families share certain qualities in any successful

economic, social and political order.

Those qualities are Honesty, Frugality, Dedication and Respect.

When each person who makes up a family has a good and solid word and deals fairly openly and justly with others, then all the others can rely upon him.

When each is wise enough to be frugal, the whole shall not know want and shall usually have more than enough to satisfy their limited needs and wants.

When each is dedicated to the duties and tasks proper to them, they

shall not know permanent set back as they shall have the resources and depth of character to start anew and overcome the obstacles that face them.

And When each has respect for themselves and others, then the whole is a gem to be treasured.

As the person, so the family and thus the people.

These good moral qualities allow for stable lasting families, tight knit communities and a strong sense of belonging to a people that is a greater whole relative to the family units in the communities which the people inhabit.

This ensures a sense of being part of a united people who have a commonality of language, customs, and more binding ties than mere economic gain in common; in effect it ensures the organic society is a family of families, which spring from the first bonding pair to form families, communities and the living walls of the national-state which encompass the whole: One, complete, self-replicating, unique, strong and united.

A Family of Families with a way of life upon a land, living as they see fit to live.

A greater family who have a shared historical experience which binds them to the present and a common understanding of the past which also gives them a sense of the value of the present tasks at hand.

A family writ large with an overarching culture that shapes and is shaped by the heritage of each family which makes up the People, such that it expresses what is best about the people, family and persons.

One Great Family.

This people as a unitary whole form up a national-

state.

The nation being the ways and means the people use to ensure their culture and lives are secure INSIDE the circle and is mainly customary and non legalistic.

The state is the law and governing structures that protect the People and Families from external threats and ensure general order to the whole Popular National Body.

This natural nearly automatic organization ensures the people are well ordered inside their circle and protected from the chaos which is

ever present outside the circle.

But everything starts with the family consisting of a father and mother forming a life long bonding pair giving structure to a stable home, with a sound hearth and passing on their true and whole heritage to a child. Which child will then restart and expand the circle in his or her turn.

This first family is the solid basis for our existence in a very real way as out of its collaborative work product are all great Nation's delivered into the world. It is the factory and fortress of the People.

The Family being Nature's primary division of labor which division allows for the father and mother to specialize – the one at providing and the other at preserving such that a child can be provided for out of the joint effort of the parents with the purpose of carrying on their hereditary ways and passing on their values.

By this means over time the family will grow into a people who have commonality, a shared culture, and a unitary historical narrative, who then erect a national-state, by which to defend their land, life, and livelihoods and to ensure order, law, and justice to all by means of an almost ingrained sense of duty, loyalty,

courage, and honor the citizen body has toward the familial people which are the base and reason again for the entire edifice called 'society'.

The family can, and should be seen as the first polity, first social community, and the very first joint economic venture in history. It is the template from which all more complex organizations arise and the measure by which to determine what is the correct course of action – what is good for the family is good for the whole society as the what is good for the parts makes the whole better by default.

This first family's proper relations, rights and

duties form the basis
for any successful political, economic and social
order.

From its example flows: The order of Politics which
has the aim of
securing justice to all high, low, and middle; the
proper pattern for an
organic society which is to ensure proper relations
one family to the
next, and one person to the next outside the
context of law and in the
domain of good morals and manners; and it sets
out the pattern for
the proper function of an economy which is to
house, cloth and feed
a given popular national-state starting with each
family home that
makes up the National State. If the singular

families are sound the
Whole People is well founded, and the National-
State is The People
acting as One.

It is by unity that a Family and a People, build a
National-State.

The Familial People, based on individual families,
and NOT the
individual is the quantum of human existence. The
family can
expand itself but the single individual is sterile and
has NO hope of a
future apart from his complementary opposite of
the other gender
with which to continue the kind.

This primary fact, of human dependence upon a

family, who depend
upon a community of efforts for existence means
that individualism,
is a false destructive belief, which endangers the
productive future of
the people by encouraging the members of the
individual families
and the families themselves to behave without
proper regard for their
duties and obligations towards the greater whole.
Or even toward

their own personal survival in the long term.

All humans live in some group of at least an
extended family. There
is no man woman or child at home in the natural
order of things,

who exists without a past, a family and a society into which they were born.

The individual only exists as part of a family in the first instance,
and families are only as strong as the individuals do their duty as
part of the Whole and are taken care of by the whole in return, and
the whole only grows, and renews by action of the family bringing
new members into the fold of the people. They all pull as One. Or
there is NO reason to use the collective pronoun in discussing them.

Therefore it follows, then a balancing point must be found which

allows for the individual to exist and the group to not be negated and which allows for the group to exist and for the individual to not be negated, but which in the end favors the family and larger group over the individual as being primary, since again the Male-Female pair can expand their own numbers by natural increase where as any single person is simply sterile in nature and doomed to a very short and brutish existence.

This may sound like some sort of mystic dualism, but this is only true, if you accept the idea that individuals and groups are necessarily in conflict. Once you accept the reality

that they exist
only as complements to each other. It becomes
very obvious: The
'two' 'opposites' are in reality only ONE thing
considered in two
ways. Once this realization sinks into the mind the
apparent
mysticism and dualism vanishes under the gaze of
proper and correct
understanding.

The Member and the Family – and by extension
the Families and the
People – are two ends of the self same thing and
properly serve each
other as much as they are served by each other,
each sustaining and
animating the existence of the other, from now

until all time.

We exist for each other as much as for our selves as man is a social being designed by providence to be part of a familial group which group is bonded together not by economic advantage or fear but by Love and Kind Regard as one regards their kin and close associates, so is the Familial People who have taken the Organic Society to heart and made it their reality, bonded by goodness and justice not mere gain.

In the context of the Whole each and everyone have duties, responsibilities, and obligations, that are attached

to their birth
family in the first instance, then slowly they learn
to extend this
outwards to the People more generally. As they
grow wise they see
circle of life and the connection between the past,
the now and the
future which they are laboring as one to build upon
the solid
foundations they labor upon today.

They have rights, and freedoms inside the circle of
the people, but
only because of the activity inside the circle of the
people in the
form of duties, responsibilities and obligations,
which tend toward
the end of securing the conditions under which
those rights and

freedoms have meaning. Outside this circle of order there is only violence and chaos. In brief freedom and rights exist because the People organize and order is established, and because the people value those goods enough to organize, live, and labor to attain them.

Thus said rights are only natural in the sense that man will naturally as an extension of his household have a polity that will form order, and in so much as said rights and freedoms in their active application do not harm the morals of the family, the stability of the people in their homes, at their livelihood, or otherwise weaken the people over

all then they shall not be prohibited. Most matters
should be merely
choices among a range of acceptable choices but
this freedom to
choose only occurs because men form a circle that
keeps out tooth
and nail nature such that the 'better angles' of
human order can reign.

So it can be said that in so much as rights are used
to strengthen the
families, and people those persons who so act will
be encouraged,
even perhaps helped in their efforts. Surely in a
just order they
would be held forward as an example to all. Since
to hammer it
home again 'civic order' only exists because men
loyally defend

hearth and home, while the women and children act as auxiliaries –

This arraignment where one defends and one supports the defense of a home area is the natural organic manner of living higher than an animal. To having a stable and proper home, land, and law like a proper man. To the better way that creation presents before Us the dissidents of this decadent age as the truest way to ensure Life in a land as a unique people with our way of life intact whole and complete.

The Family based 'model' is the tried and true way forward for our People out of this land of death and back to the

Land of the Living.

It has proven its worth over thousands of years,
and has shown its
value most by its absence among the modern
Western Peoples, We are
inclined to believe.

Families are the foundation for all civilized life
among our kind.

From the basic reality that The Family is the ideal
model of human
social organization, it follows that all societies,
must like all just
families, ensure a place for all their members. It
simply true that
everyone in a society must have some use, purpose,
or function in
the society or they shall become alienated, and not

hope for the best
interests of the society at large.

If our people are a people and they are in fact
'together' then it is
NOT too much to ask that we ACT as if we in fact do
care about our
brothers, sisters, and elders, the young, and all that
are loyal, have
good will, and are willing to do what they are able
to help the greater
whole go forward.

If we are in some way 'one' and have a 'past' that is
shared I say let
us celebrate and rally around that oneness and past
as anchors and
guide posts along the way of life.

What did you do?

World: What did you do while South Africa was genocided?

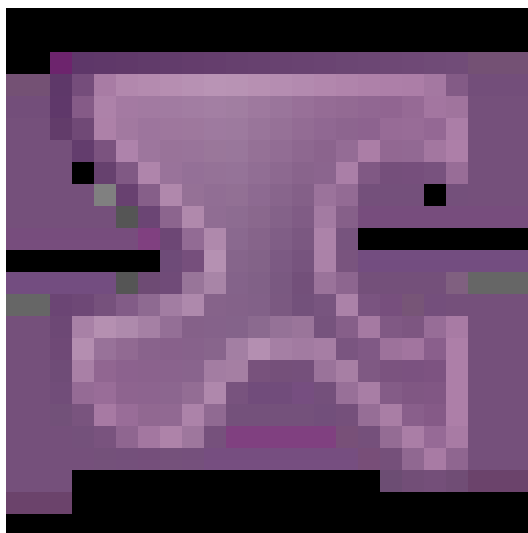

WN-Orgs: Took in Donations, held talks about Zionists, since we all know that only Zionists are real -- Whites dying is an illusion put forward by the Zionists to divert donations to useless 'causes' like Poor Whites in South Africa.

Larpers: Named the Jew, while harping anyone that did anything practical, demanding answers that I never even read the replies to since I never meant to do anything but Name the Jew Bravely from my basement lair.

Normal-People-that-matter: TRIED TO HELP regardless of what Other People Did.

Some Random #AltRight Thoughts Round

23 The Movement Hall of Shame

Just a middle aged man babbling for several

minutes about how White Nationalism as judged by its flagship forum seems to have LITTLE INTEREST in helping White South Africans. We present the Stormfront HALL of Shame -- While SA farms burn and White Folk Live in Squalor these Cowards intend to 'bravely name the jew' from the comfort of the First World ... What kind of Nationalism does nothing for WHITE NATIONS but bitch about JEWS? We need better nationalists.

To be fair the Users Enzed Vod Mcduf Fred Boy Howdie and RedRosy among a few others really stand out as GOOD QUALITY PEOPLE with their mind right. We need more like this to drive out the clowns. Thank YOU.

Now Time to Shame These Clown World Chumps.

Phoenix1933 How do you suggest we save them?

You didn't mention any solution.

I don't think confiscating farm land will lead to civil war, but south africa has 57 million people and 3 million are white.

There will be a lot of starvation.

It would be very interesting if there were a genocidal war though.

I see south africa as the worst place for whites in the world and whatever happens there is the future for other western nations if we don't save ourselves.

Reply: There are 5 million Whites ... 3 Million Afrikans speakers ... Try simple facts.

As to How? You know I have only had 24 hours to ponder the Subject -- What a demanding lot of harpies.

What I am 100% sure of at this time -- South Africa

is OUR NATION ... it is the White World in
Minature. As it goes; So we GO.

What else I know for 100% -- Nations are BLOOD
GROUPS not flags, not lands, not anything else but
BLOOD GROUPS. The Anglos in SA are OUR
DIRECT Cousins and the Dutch Boers our more
distant Kin. They are OURS to save. We are all they
have. No one else at all. If you SHIRK -- they die --
that I know.

What do you know? That we should roll around
and cry about magic hebrews?

Guilt = Weakness

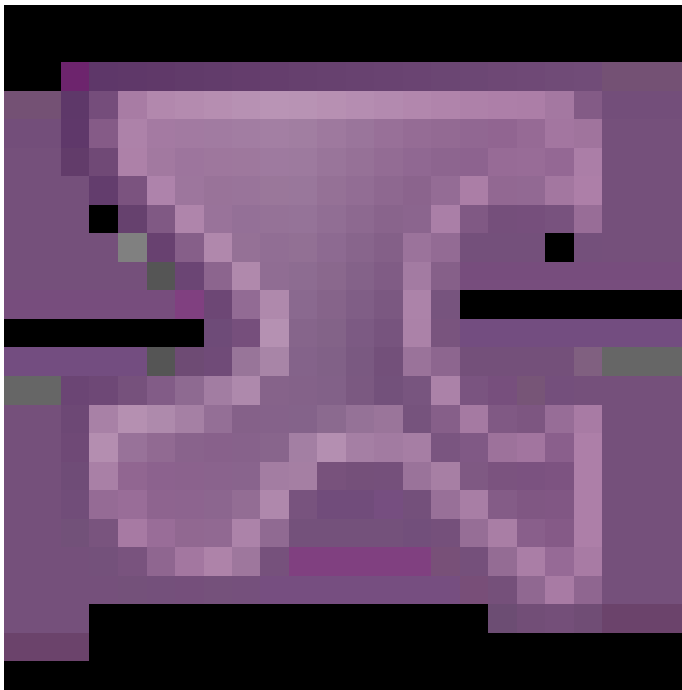

Just a middle aged man babbling for several minutes about how all the Western People are under a guilt trip about 'colonization' when in fact sans our genius there would be NO modern clean social orders at all, not even a facsimile, in America, Canada, Australia, New Zealand, South Africa or even the UK which, was parent to all, itself, not to mention Continental Europe without White Western People.

What there would be is violence, crime, squalor, and essential all the 'culture' one sees among bushman cannibals in the Amazon basin. So part of the 'free the mind; backside follow' doctrine is to GIVE UP 100% of this nonsense narrative about our 'guilt'. No the colored world owes us for our hard labors. We owe them nothing. Refuse to be 'reasonable' IE to accept that your side of the matter is subject to arbitration in theory by your enemies. No. Never allow the enemy a willing whip hand over your person, nation, family, community. Never do this. Whence White Guilt goes; so goes the whole cult of equality, tolerance, diversity. No Guilt -- No Cultural Marxism.

GOP -- Gutter Party with No Values.

The GOP (really all 'conservative parties' in the Anglo West) has NO loyalty to anything but MONEY and

ZION. They love to go on about the CONSTITUTION but have NO love for LIVING WHITE PEOPLE who are the decedents of the CREATORS of the Constitutional order they like to pretend to exalt. Bottom line -- it is all an act to keep you corralled into the Two Party Oligarchy that rules the USA like FIEF.

Any talk about GOP values is a JOKE. They are traitors that hate WHITE AMERICA but pretend to care about them at the same time. They are the dishonest version of the Democrats. The GOP on the whole has NO vision they only do what is NEEDED RIGHT NOW to ensure their DONORS get the maximum from the government trough while the peasants get less. That is Fact.

Thus any gibberish about how the GOP will Make America Great Again ... is Fantasy ... they hate WHITE AMERICA and want WHITES replaced with CHEAP COLORED LABOR. The do not place America first ...

since ONLY Israel can have the Pole Position else you are a Anti-Semite. In point of fact the GOP are MORE SERVILE to the HEBREWS than the DEMS. Sad but true. Thus any lies about America First are purely a con when the GOP establishment mouths them to garner votes. Replace GOP with your local 'right' party and it approximates out well.

Magic 4 Children

(Approximate wording of spoken presentation. Some Ad Lib Embellishment and outright digression in live broadcast.)

Magic is for Children not for Nations of Grown Men:

The country club conservatives and the rabid egalitarian liberals have a shared belief in magic here in the Good Ole USA.

Substitute your local 'right' and 'left' to follow along from any Anglo country and most EU nations. Come on mates it will be fun.

Now as was stated the Right-Left 'major party' alliances across the West believe that magically a piece of paper – Naturalization Paper Work -- is able to turn a person of one nation into a person of another nation. They believe unquestionably that Magic Dirt functions to ensure perfect legal, spiritual, mental, and cultural transformation of others into 'us' without distinction, automatically by magic as it were.

They believe OR at the very least will jail, censor, suppress, threaten and/or harass us for disbelieving, that because a piece of paper says that all persons are equal that all nations of persons are equally able to be exactly 'the same as us'. Thus they both agree that loyalty to Us is not necessary since we are 'only individuals' who are not special except in so much as magic paper and dirt are shared by us all.

Therefore they reason it doesn't matter where we import new citizens from because everyone's the same. Everyone is equally able to build, create, maintain and sustain a Western Christian Culture even, no especially when they are Not White Western

Christians. Everyone without exception adds to the total value of our 'shared way of life' under Multiculture.

This is a fantasy. It is magical thinking that would make any child or charlatan very very proud.

The real fact is that no such equality exists in nature, and thus these Conservativa-Progressives are deluded, confused creatures who are either very very dim or very very caught up into a roll they can't break. If they believe this they are dim, if they are pretending to believe for gain they are false. But either way they are purely WRONG.

Persons are not equal to persons, nations are not equal to nations, and therefore who from where matters as to what results how. Why?

Because, abilities are largely inborn, coming from descent. What accounts for the extra bit is added by way of CULTURAL artifact which are anything but equal. And mere pieces of paper, and the legalistic magic rituals used by lawyers, courts, social justice warriors, cannot at any time ever make people equal, since biology is not subject to their dictum. However, what does result from importing these piece of paper equals,

is that the overall average ability in society is lowered, to closer to the piece of paper equals original homelands, while social cohesion is also lowered so that less and less are our lands unified as one.

The Fact of Inequality shown time and again, by different outcomes among different groups of people based largely upon the single common denominator of common origin and descent. It is simply a hardwired part of natural survival strategies playing out in groups as they are designed to by nature--or God if you wish.

This inequality is not the result of racism, xenophobia, or hatred; it is in fact only the natural abilities of each separate kind playing itself out, and resulting in natural inequality, which is just the way of things in nature. It is not subject to political pressures, it cannot be changed by applying money or resources to it; again the only thing that can happen is that the higher will be brought to the status of the lower in a vain attempt to bring up what cannot be brought up, or to shape that which will not be shaped. PC will have you believe that tribal savages live the way they do because of racism but that is just their natural way of living. PC cannot accept this naturally inequality in status.

Thus the war PC is waging against inequality is a war against nature itself. It is a war against all factual reality. It is the act of the common enemy of all mankind. It surely will be the destruction of our kind, if we allowed it to continue with its mad quest for equality with third world savages.

The country club conservatives are the hewers of wood, and porters of water for the PC world order. Carrying the egalitarian logs with all the cheer of a coolie in their magical belief in the power of paper. Their insistence on using words like racism as shaming words. Their kowtowing to equality as if it is reality. All these cowardly and servile acts, facilitate the destruction of our people and our nation. These conservatives are the equivalent of the Western roman aristocrats talking about barbarians becoming good Romans; it was a fantasy then and is a fantasy now. It destroyed the Romans then, and if followed long enough, to full enough a result, it would destroy us now.

Thus these country club conservatives, these colorblind GOP dolts, must be put to task with the rest of the PC banker golden calf worshiping crew (both D and R); for they are the face of the enemy, and work against our best interest in all of their ways.

Their Paper and Word magic must be denounced as the fraud they are. They must be denounced as frauds.

Say No To #MLK | No Communists

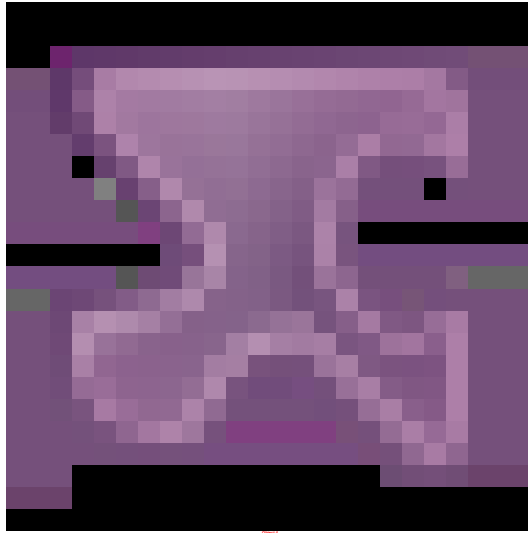

Welcome

America has turned into a weak spineless nation that worships at the feet of communist blacks, browns, yellows, reds, and really any non-WHITE commie who promises to promote HATE for Traditional WHITE SOCIETY.

It is really pathetic to watch people get all worked up over 'Dr Kings' dream when his gibberish was JUST and ONLY standard COMMIE BOILER PLATE for the time and place. There was then and is now nothing 'special' or unique about any of his Marxist-Leninist Gibberish.

Saint Marching Looting is literally just a subversive communist. And I for one am glad his 'work' was stopped cold by rifle shots since the FBI did not have the stones to end his subversion. Now we need to work on erasing his memory. If the commies can attempt erase our history we can SURELY black bag their lies.

AmericaFirst Means #BuildTheWall

#AmericaFirst Means #BuildTheWall

To give this back ground: We have our troops already at war in Iraq, Syria and Afghanistan, as well as several other undeclared smaller affairs in Africa. We are broke – being about 20.5 trillion in debt as of this writing. Our Domestic Industry and Infrastructure if thought of as a unit are antiquated

relics having little life left in them being already strained by use and worn by time. Our Borders are wide open to millions upon millions of illegal (approximately 3-5 annually net) and about 1.2 million legal immigrants year on year with no end in sight, on the one hand but on the other We are absurdly guarding the borders of these Central Asian, Mediterranean, and Middle Eastern States. We are to let that soak suppose to just leave ours totally open to Caravans of invaders from Central America and god really knows where else to be honest, while policing others borders at vast expense in blood and treasure. To add insult We are told we 'can't' effectively use fence and patrols in the mighty USA yet Hungry has shown this to be a lie if you have the right number of patrols sweeping for people that try to evade or overcome the fence.

This has been coming to a head for some time. This is #IsrealFirst Vs #AmericaFirst Globalist VS Nationalist The Nation vs the 'World' as the fist loyalty.

Just last week #StopTheCaravan people had enough momentum to get Pres Donald #Trump to put #AmericaFirst verbally at any rate defending our border with troops which would be deployed we were told. Talk was even had of using the military to build a wall to defend our Border and use the MONEY the MIC is addicted to for the purpose of #MAGA and thus putting #AmericaFirst. So far so good. #MAGA in sight ... But wait ... what is that ...

Swamp Creatures Bite Back ... Notice every time a war can be avoided, there is an 'outrage'. It is almost like the Swamp MIC Fifth column alliance

manufactures these events, uses their media and academia talking heads to push it to the commons, and then takes action they already were determined to make at all events. ALMOST.

... What the peasants, are gonna defend their border ... gain higher wages fix the decline demographically ... SURVIVE as a National IDENTITY, as a greater whole, that care about more, than money??? Says the Money Lender Freedom Broker who is funding the Caravan Invasion ...

... BUT LOOK SYRIANS were gassed by Satan-Assad-Putin-Hitler ... Comes in the Media Liar to save the day – Quick Give a UN Lecture to the servants; that will give it substance. Elite in Swamp go in Unison: War is ON. #MAGA denied. Or even

more insidiously they will try to say that MAGA means war with Syria ...

Profits Saved for 'Freedom' and the Wall Street Way.

So here we are today. The Border was SUPPOSE to be secured – But Now suddenly as if by Magic Auto Instantly Like – We have the entire MIC/Zionist-Fifth-Column frothing for open declared total war with Syria – War that will ensure the Marxist Kurds and Wahhabist/Salafist Moderate Rebel Cannibals 'win' to partition Syria because this is what Israel and the War Profit Hawks have agreed is 'in everyone's interests'. Then we will be inundated with 'refuges' caused by these very actions. War ... then Boat People ... Just say no to such silly pseudo-safety.

Now folks this might seem a bit crazy but I feel safer when MY nation is protected by MY military at MY BORDER, not when my nation's forces are used(misused really) such that profits are flowing into Wall Street and so that Israel can safely bully Palis and other people from the Air with American provided military hard ware. Yup.

This #IsraelFirst Policy of the Globalist Elite in the Swamp just seems WASTEFUL of blood, treasure and national prestige. Any money spent giving them anything is wasted money. They are a danger to our national existence, in so much as they take effort, focus and application off our border, infrastructure and industrial needs, to the advantage of any others including the ally that has no value. The first set of concerns are real issues of national defense and the other agenda places a FOREIGN power, and its agents personal profits

over the Nation – which I should note is
TREASON, as well as Corruption.

Bottom Line – Our Border is Real. America is our
only HOME ... the globalists have other options ...
Thus placing American First with all attendant acts
and policies is logical and sensible from our view.
We have No good reason to care about Israel.
Putting this speck of land first is absurd. They
provide Nothing but demands.

Israel is a false friend, useless ally and frankly a
demanding harpy doppelganger. ISRAEL stands to
gain most by Syria and Iran being lowered a notch.
Let them do the work. They are NOT our burden to
bear up the Golan Heights.

NONE of this Third World hellhole Nonsense is
our Drama to Sort. None of it.

Nose. Time. To. Remove.

Truth Be Told: Even if ASSAD is gassing every
Jihadi John and their families ... I say
#AmericaFirst means Screw what happens in
Syria. If the Zionists and Moralists on Wall Street
are so upset let them fight in a personal capacity
for their cash cow offensive. But Normal Work A
day White Americans want:

#BuildTheWall

#DefendTheBorder

#DeportThemAll

#AmericaFirst

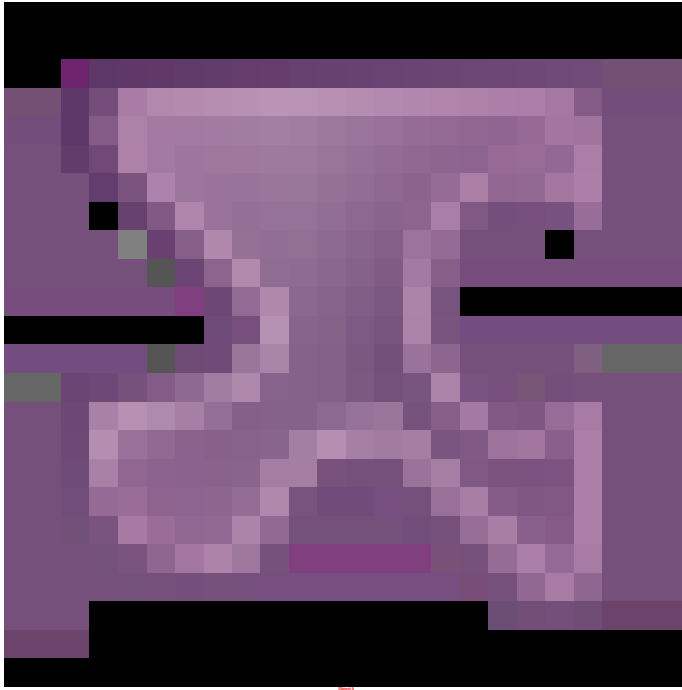

#MAGA Not never ending war for #Israel and the
MIC.

#Syria is NOT our water to port nor wood to hew.
We have NO 'White Man's Burden' Either
Commercially for Wall Street Usurers nor
Emotionally via 'White GUILT' owed to the 'world'
of Cultural Marxism at large. Let them eat
NOTHING. We shall put America First by building
a Wall, deporting the illegals and to the shades
with the world's White Guilt and Wall Streets
Usury games.

Those are not to our best interest. Defending the
Border and Keeping our demographic Majority are
everything, thus America First means Defending
the Border. Since No borders means NO Nation.
And with out a nation – Nationalism is pointless.
#BuildTheWall Put #AmericaFirst – #MAGA by
default.

Some Random Thoughts on

#NoWarInSyria #NoWarsForIsrael

Trump has determined that Israel comes first and that Making America Great Again IE ensuring we stay a WHITE WESTERN NATION is second fiddle to ensuring the Usurer Tribe of Globalist War Mongers get their wish list of Iraq, Syria and Libya overthrown in short order. **#TrumpTrain** Derailed MIC/Zionists back on track.

The fact is that our entire establishment are **#IsrealFirst** Traitors that have NO loyalty to the White Western World. None. We have a doppelganger Hindu pretending to be our voice – like with Iraq where the ‘British’ house boy ‘spoke’ for us all. This is not **#AmericaFirst**. It is **#MAGA** ... it is Business as usual. It is a 100% sell out of every ideal that **#Trump** presented to the White Voting Public as his platform for action. None of us voted for or supported – never ending war, open borders or MORE ‘free trade’ since yeah we are back into TTP now it seems by imperial decree.

Not one of us on the right voted for more world policing and more globalist interventionism. We reject the world empire and its ‘duties’ ... Go Die For Zion yourself Mr Globalist.

We ALL supported the IDEA of REBUILDING HERE in the USA. We all supported the idea of jobs, infrastructure and a restoration of basic public decency as #MAGA and LOCK HER UP indicated. For a minute there it seems that we might be First World White Again ... but then DACA, Democrats, and his Daughter ensured that was a wash; all nationalist types were purged; and we are now the Janissary mercs of Global Goblins openly and fully without debate – since only antisemite nazis who gas children oppose war with Israel's enemies for Israel's gain.

Hint: #Nazi #Antisemite and the like are worn ... try poo poo head instead.

Fact: Neither Syria nor Isreal are worth a single penny or drop of American Blood. They do not

make America Great Again. Nor does waging war
there place America First. In
finis: #NoWarInSyria under any
circumstance. #NoWarsForIsrael ever again!

Police: FUBAR

So yeah, we are post wall. Post **#AmericaFirst** – cheap lie to con GOP suckers into voting for the **#TrojanHorse #TrumpTrain**. But there was always only a slim hope in the GOP being able to even stall the decline. No. Their failure is inherent in their stated desire to remain loyal to MLK, equality and other liberal 17-century-Rationalist-Fantasy about ‘Humanity’ and ‘society’ not to mention the Nation and State.

So what will be needed is a NEW party that has real world policy objectives that are both solvable by increments and desirable to the White populous at large – We propose the following.

1.) End this World Police Mission. This is the easy policy that can be used to POACH from all sides; thus it can be used to drive wedges. The INSANE cult of the Mercenary only survives because people don't simply laugh it out of the room. ZOGS TROOPS fight for ZOG not for my freedom. Period. Have since Vietnam.

2.) Cut Petrodollar ties to Gulf States. Frankly I am tired of

carrying the
ZIONISTS and Arab Dictators up comfort hill. I
tire of being their
lackey. It is shameful that a great nation is RULED
by default from such
shithole countries as the Zionist Settler State and
the Saudi Psuedo
State ... Pathetic.

3.) End Nato. Let Europe be free of WWII and the
Pax Americana which has lulled it into full death
cult status.

4.) Keep North America Safe by Securing the
Borders from the Arctic to the Gulf of Mexico.

5.)
Dismantle Federal Reserve ... Replace with a bank
controlled by the

Treasury SOLEY. Cut Wall Street & The Square Mile out. o will be the repayment for Treachery.

6.) Put world police, Nato, and money saved on PUBLIC DEBT into REBUILDING infrastructure and retooling industry away from WAR to productive pursuits.

7.) Ending Opioid Crisis by destroying Mexican/Hispanic Gangs/Organizations that produce and sell said drugs. Eradicate them.

8.)
Fix Demographic Problem in part by MASSIVE deportations and round ups of Central Americans ... Broadly defined. Everybody from South of the Rio Grande is Mexican Today.

These are OPENLY ethno centric. Promote Actions that WILL lead to a North American EthnoState or States. And they openly reject the SILLY notions of ‘diversity’, inclusion, tolerance and acceptance as the death cult mantras that they are in every real world. Say it: Democracy is a Diversity Death Cult ... There is NO Demos. No People under the layers of verbal gibberish. None. Only ‘humanity’ IE Death Cult.

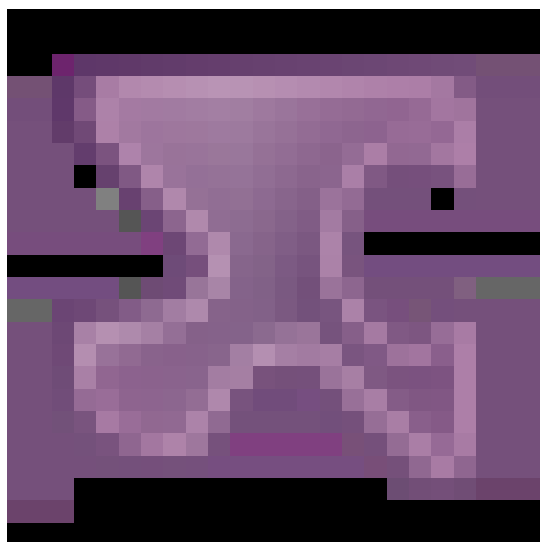

No shame. Yes they are ‘racist’ ie exclusionary AKA tribalistic ... this good. This is healthy. CUCKING to the cancer that is tolerance is what is unhealthy. It is in fact

playing the weak ‘but the liberals are the REAL racists’ nonsense that has caused this utter mess since it brings the GOP into PACT with the Liberals. They are Master and Man those two.

Tolerating the Failures of the #GOP, Buckleyite ‘Conservatives’ and Trump is what is WRONG/Evil/Ignorant – since NO free man with dignity will allow such FAILED leaders any more reign. MLK as color blind Saint of the MIC is the FUBAR – Only Weak People will bow to such vile man made idols to the mediocre. The Sodomy Slutty Coca Cola Rock and Roll ‘culture’ that we enforce at the tip of Airpower is the FUBAR – if you enjoy the modern West ... You are part of

the FUBAR. To End the FUBAR we must end the Empire. It is not longer term a choice ... since the Empire is waning NOW. Not waxing but wanning. We only have a limited time before fubar forces our hand at events.

#StopTheCaravan Failed | Invasion fully under Steam

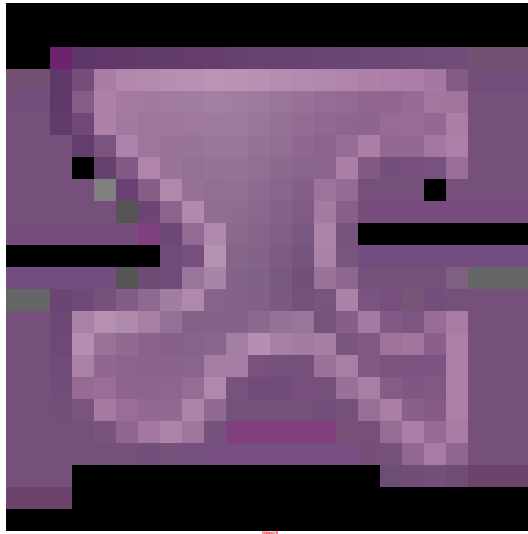

#StopTheCaravan has failed. Invaders are NOW DEMANDING entry into our nation ... as a "RIGHT". Yes INVASION is now a right. This

failure is 100% the FAULT of the WEAK pussy President **#Trump**, since we all KNOW the PUNK will allow them in like the LOSER Chump he is ... We wanted a Jackson and got a House Boy Lackey of the Zionists cheap labor lobby instead. And yes I fully blame TRUMP for his OWN FAILURE to defend the Border as that is HIS JOB 100% not anyone else. Trump is a two faced coward.

As to the 'Law' -- That is merely Lawyer Babble ... it is NOT sacred writ as it is ALWAYS ignored when the ELITE are the 'criminals'. Fact. So why not ignore it now to save the WHITE MAJORITY in America?

And yes that is the GOAL -- SAVING WHITE AMERICA ... not garbage about the 'rule of law' ... WHITE MATTERS ... Legality is garbage. Nice and simple.

Liberalism's Heir

Liberalism has ran its course, passing the torch to its heir, Cultural Marxism, which has festered, and the fever while still high is receding. Now it will birth its own destruction. The attempt to destroy White America with mass immigration has the White Majority riled up as they simply have NO interest in becoming a minority among minorities by and large.

They can harp about tolerance all they like, but

Territoriality among all gregarious mammals is a fact and it cannot be simply wished away. So is racial identity which has as solid basis in biology as well as cultural historical identities which for all the vitriol from the left is STILL more real than their 'construct' gibberish -- biology and the past have weight as a fact of natural affections, behavioral instinct affects action -- this is just reality.

Creation has RULES ... Life results from following them; Death comes of defying them.

Part of these rules is that each kind has a place that is theirs to have, rule or command as they wish free from outside interference. This is predicated upon the TRUTH that groups are primary not persons, who only exist as living intensities inside a group of at minimum a family. This is life affirming Nationalist Truth.

Nationalism posits that every nation is unique -- nations being BLOOD Related Peoples with similar language, history, customs and culture.

Nationalism posits that each has a RIGHT to rule its own territory for the advantage of its group ALONE. So the Blacks, Browns, Reds and Yellows are NOT of our nation they merely LIVE in our country. Only the Whites in North America are of our Nation sticky speaking but by a bit of extension ALL WHITES who are English Speaking among the wreck of the British Empire are our Kin and will be treated as Nationals of our Ethno State – which could in potential be the GREATEST STATE to ever have existed in population, size, resource base and technological/intellectual vigor. But liberalism demands ‘diversity’ IE DEATH CULT instead.

Liberalism proposes that PERSONS IE Individuals

are primary and thus denies even the FAMILY as a unit that has wholeness beyond a mere contract among individuals. They are death cult because they exclude, diminish or contaminate all that leads to life.

Liberalism at its logical extension requires that no singular Nation or even stable majority have sole power at least the Globalist Multicultural Version does – Which is the ONLY officially allowed version so called ‘classical liberalism’ hides among the Shadows even more deeply than Nationalism Proper theses days. The Liberal-PC-Money-Lender monstrosity is the rule of the wealthiest few, under guise of legal language about 'democracy' 'equality' 'tolerance' 'inclusion' and 'diversity' as holy noble goals that bring goodness in and of themselves – It is all an insane fiction.

The legally enforced equality et al. under the Usurers' lawyers is not tenable long term as it attempts to shape reality by use, control and contortion of words rather than describe reality using correct words.

It attempts to use courts to brow beat people into saying that 4 is 5; that wet is dry. It uses threat of naked force and subtle shaming to ensure that we each and all will deny reality, and say the insanity they prescribe for us. What of the Elite? Are they 'denying' or just insane? Clueless. They are removed from the problems only seeing the cream. Thus, The elite have nothing to deny ... for them $4=5$ since all things are truly great from behind the gate. White Black Red, they all pay for the Stead.

They thus can truly believe that every can equally care for and love all others to each other -- absurd

as that sounds -- because it is possible to say such a thing in legal language and because it sounds 'good'. They also can crow about nonsense like 'we are all equal but diversity is truly our strength' among other contradictory and self negating concepts. Legalism is abstract and removed from normal human intercourse, value judgements and action. Liberalism took on an immense dosage of lawyer babble, it too is far removed from human reality being at best an absurd sophisticated model, that uses legalistic language to SOUND correct.

This inhuman disregard for the normal bonds of affection among groups of people, will come back to bite it just as it did the commie experiment in Eastern Europe – Marxism being liberalism's inbred bastard after all.

Why do these systems collapse, you might ask?

Humans seek to have a stable 'circle' of wife, children, grandchildren ... this is natural. Liberalism's 'humanity' is NOT natural or real.

Add to this mechanical view of human nature an inclination to promote every death inducing fad, life style or action they can find and it is assured they will fail from nature's good graces. We are thinking of primarily FEMINISM, SODOMY, and Gender Equality – ALL against Natural affection, all pillars of death cult.

To all this is added the fact that Liberalism and its Marxist Brood deny INHERENT NATURE to man, insisting he is 'clay' to be shaped at whim. This simple assertion has caused MILLIONS OF DEATHS as Nature resists the 'shaping' and the Liberal/Marxist has to KILL the man to 'remake' his reality, economic, social, political, or otherwise.

Human Nature will only bend and twist so far before it lashed out and sets itself back to normalcy. Therefore nationalism based on Family, home, hearth, heritage, which leads naturally to a shared commonality of history and culture in the context of a community of folk will prevail as it is the normalcy that most people seek.

In its ways are life, happiness and purpose for the person and greater folk together in collaboration to the common good. We are talking about real organic Nationalism among Whites in America which is growing in spite of the liberals, commies, and useful idiots among the so called "right" as well. This is because life will not be denied and in nationalism lies life.

We are not talking about internutz 'white nationalism'. No, that is just as worthless as ever,

and is in fact a joke. It is in fact an albatross that keep the potential cadre class of the future nationalist folk state fixated upon fantasy 'race wars' rather than working to organize those of their class -- each person has a 'class' we are not Marxists after all -- to the common ends of ALL classes and castes that are loyal to the common good of Whites such that when PC becomes weak we will be well placed to inherent these OUR RIGHTFUL LANDS back from its tyrannical grasp.

It is this lack of a proper leadership caste among Nationalist minded folk, coupled to a lack of small successive goals that lead to larger things, that more than anything holds them in bondage to their enemies will. It keeps them from having a 'vision' a dream that motivates beyond mere personal gain or glory. Leadership \neq Politicians ... Leaders do more than talk. They perform. They make things

happen in the world of real things. They do WHAT is needed without fail, regardless of popularity or polls.

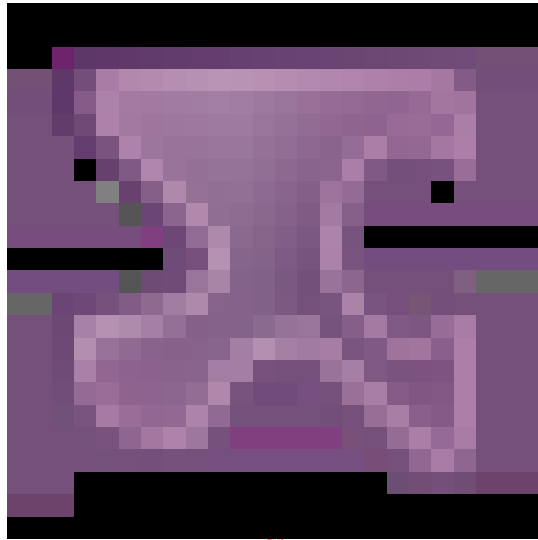

They DIRECTLY ensure their people have the things needed for life before all other things, wealth exists for the GOOD of the FOLK not for vanity. Leadership like Nobility is about SERVICE and DUTY. Less Talk and More Walk would be the most ideal thing.

The Elite of the Western World are NOT leaders ..
ONLY PIMP Politicians

So here we are at the end of the
Materialist/Marxist/Liberal world era and at the
start of the growth of a new Nationalism that will
grow into the new world paradigm given time.

A Nationalist Dream of Tomorrow

Once I was dreaming – and realized I was in a dream
such that all was allowed and nothing was forbidden but
by my will, lord of this hazy land of dreams was I. God
had set me at liberty to order this dreamscape I was
upon; Legislator, Judge and Executive was I. By my
whim, all was order as if by magic in this ethereal
domain.

And it began thus -- It occurs to me that the West has been so striped of industry that the normal rule about change in the industrial sector having profound effects upon the workers lives slash greater economy is no longer true as there are a lot fewer industrial workers these days inside the national borders. Fewer Jobs means Less Chaos caused by clean breaks from the present to new conditions – economic, political, and social – conditions that favor the White Majority regaining its exclusive use of this land.

This low wage labor on demand era is a terrible bane to our people, as it keeps us bound to the third world cheap labor, puts the sexes at war for jobs, and divides the natural organic nation for the sake of greed, as well as creating an gap between our rich and poor who are seen are replaceable and expendable. However, I am sure that it can also be a powerful boon as it provides motivation to rebuild a higher wage stable employment situation like the '35-'70 time frame was for our fathers and grandfathers.

If the Right Leadership -- leadership that rejected 'free trade' and the 'world market' in favor of our Nation; leadership that was free of 'public opinion'; leadership with a long term willful purpose -- was to be in power, this status can be used to the good if one realizes that with far less entrenched workers lives and/or special interests to disrupt and with such massive under tapped manpower potential that there really is no wrong way to go. A blank slate allows all things.

For the Record -- Robotics in the absence of a guaranteed living wage is not acceptable ... NO JOBS = NO WAGES = NO FAMILIES PRODUCING WHITE CHILDREN. Robotics is Death Cult at its pentacle. This means LIVING JOBS for MEN so they can be bread winners. It also means women in the home being a MOTHER and home keeper for the families as nature intended.

No Feminism/Sodomite nonsense about 'gender',equality, or choice will be acceptable -- we want FULL ADULT MALE EMPLOYMENT, nearly Universal Marriage, an end to legally allowed Divorce and maximum live births per breeding pair. This means good wages, benefits and stability in the home, as well as stable families that work and stay together to ensure they have the means to care for themselves.

Anything else is death inducing mamba that lowers birth rates and ensures LESS of our kind over time.
Unacceptable.

Feminism's death cult mentality among modern 'free women' will be PUT DOWN. White Knights -- who are almost entirely SODOMITES/Arrested-Beta-Boys trying to enable feminism for their own ends -- will submit to LIFE or be shipped to Far North for forced labor ... Neither Suffrage nor Sodomy shall endure into EthnoState -- both are unnatural side effects of Death Cult. We shall sweat them out.

So in effect we must put industry back on track to employ the mass of working middle class folks; however this is not even desirable from a Life Affirming pov unless we also reassert Patriarchy, Family and Life over Multiculture, Individual, and Choice/Happiness.

This means male female life long bonding pairs that have specialized duties over that life time such that the maximum number of living children are born. Not a trivial thing but all things can happen in a dream – and it is Our Great Dream after all.

To set aside the 'we can't do this' Because? Muh Markets! Make Me Laugh ... Markets are Nothing but Human Choices in Aggregate. Nothing. As to 'muh liberty' ... What is liberty FOR if not for the GOOD of

the COMMONS? Thus by doing this we are becoming the Market and ensuring our mutual liberty as persons and as a whole.

So with that in mind. Lets talk Shop -- Dream the Dream upon the Qua ... The Murri-Qua Magically become an ethno state by my whim. T'was the oddest thing I ever beheld in my mind's eye. Again as I was saying --

We are at this time highly De-industrialized but not to the point that if the major industries were rationalized in their operations and coordinated -- not confiscated or controlled but coordinated -- by a national entity made up of experts in the fields at hand not party hacks, who directed what remained to concentrate upon making the tools necessary to remake/rebuild/retool our industrial infrastructure; there is no material reason we could not work our way back to full employment and a more ideal balance of employment

agriculture/manufactures/service sectors; thus putting loyal citizens to work at good pay at manufactures so that they can buy products made by other citizens in the ag and service sectors.

We have coal and petroleum reserves to be exploited, to say nothing of the VAST geothermal, tidal,hydro, and nuclear stocks at hand. We will have the energy needed

to maintain a modern standard of living, and ensure that new innovative more or less green tech has the raw materials to produce the products needed for the life of our people and for trade secondarily. This will ensure that our more insular world has the materials needed to maintain an array of industries and skills. Don't think of the retooling innovation as a drag or imposition but rather as a challenge overcome and honor to be had – The Honor of laying the way to a Golden Age ... but as I was dreaming ...

We have enough military stocks to resist any invasion. And to ensure our liberty among the nations.

We have the man power to make any thing from pyramids to placing a man on the moon possible.

Therefore it seems that as long as our willful rebuild is:

1. Profitable to the general good. Not equally profitable to everyone, but which generally will tend to provide the economic basis for a wise society of unified people to have a decent standard of living -- which is surely a general good – such that we thrive and survive here in EthnoState.

2. Puts the maximum number of people to work for a living wage/benefit package/retirement such that we can have stable family homes upon a single pay check. This

gives a sense of purpose to both the bread winner and home keeper as well as giving the children a more stable home life. this too is to the general good as it ensures both more and better socialized children to carry the torch into the future. It gives work the function of ensuring our People's general welfare not the few's profit margins. We are not 17th century English Rationalists. Richardo is not making it into EthnoState, nor is Locke.

3.Makes a product that replaces an import or even better is of such a kind that it can do that and be exported itself. Less service, more light industry, even more heavy industry. This way we can break our dependence upon the Chinese and other sweatshop nations. And to at a blow we make our selves depend upon ourselves.

Autarky is freedom ... being economically free we can be assured of having NO collar that is not purely of our making. By only depending as much as possible 100% upon domestic inputs, resources and labor We will thus control the terms and conditons of our collective labor while striving to replace the outside with internally produced items of equal or greater value. All out sourcing will be to other kindred ethnics alone. There is nothing outside the White World that we need. Nothing.

4. Can be reasonably clean, green and non-destructive on the general environment. This will be a mandated source of innovation. Who wants to live next to a coal mining operation? Concrete plant? Chemical/Petro-Refinery? Okay then. Nuff said. Also Nationalism is the only truly right wing movement that seeks to preserve the living environment for more than its mere economic value. Let us use this to negate much of the far left's thunder.

5. is long term sustainable based on the above parameters and which there for allows for long term domestic resource management on both a private and public level. All successful enterprises from lemonade stands to mega-corps make 'plans' IE projections based on assumptions. So this is not novel nor absurd.

Thus by doing all this we as a national whole can have a real chance at making a go of rebuilding. However for that to succeed to our mind several secondary policies will have to be pushed through either slightly ahead or at the same time as Project Willful ReBuild -- good thing this is my great dream work ... no policy is forbidden when NO vote is allowed. But as we were saying --

Those policies should include --

1. Institution of a Public not for profit Banking System. No excuse to dethrone Usury to the Common Good is a bad excuse after all.

A.) No more paying for our own labor to be loaned back to us. Issue our money as a function of our national worth. Measure our money by the GDP of our products. Let us be free of the International Financial System and its evil Petro-Dollar that bleeds us dry and uses our military as its collection agency.

B.) Create One National Not For Profit Bank; Fifty State Not for Profit Banks, County Level Credit Unions to act as the base. This and NOT a commercial banking cartel would be the basis for our new national banking system. The current banking financial elite will be held under house arrest lest they flee and foment revolution against us.

C.) Dissolve Federal Reserve -- Declare its 'debts' of about 11 trillion claimed to be forfeit to the new bank, as well as declaring that the petro-dollar will not longer be maintained -- IE those foreign dollars will largely become worthless except the other ANGLO Nations, the EU and partially Russia, Japan, India and S Korea. China will be dropped hard. This will give us the time and space into which we shall withdraw to rebuild. But

so also would be the Gulf Tyrannies dropped and the Zionist Doppelganger at a blow.

D.) ONLY flesh and blood citizens will be allowed to redeem treasuries or bonds from FED ...Institutional investors will be allowed to fail. The Sorros's of the world will be bankrupted, the mom's and pops will be upheld. It is not a hard principle.

E.) New bank notes would NOT be subject to speculation ... money markets will be shut down .. let the money vultures on Wall Street find an honest wage. Let them EARN their money not carpetbag other folks' time and money. These notes would be issued on a one for one basis with the old defunct FED RESERVE NOTES.

F.) This banking system would allow the nation to capitalize needed projects at all levels, such that the commons reaps the rewards, not globalist financiers in New York, London and Hong Kong. As a bonus rather than paying for Wall Streets lavish life style we COULD in theory lower taxes and have much more manageable levels of public debt.

2. The other banks, family trusts, and major creditors would all be required to accept repayment of the aprox 8 trill of the public debt/savings they hold, in long term low interest bonds from theNew Banking System -- thus

in effect pledging 8 trillion to the public good, very civic minded of them indeed -- Call it forced enrollment to the National Good with an incentive to remain loyal or lose all -- if they are good boys and girls for 30 years they will get their money plus a small stipend. Unlike them we keep our word for good and bad.

3. The current owners of the remaining heavy, light and petroleum/chem based industries would be encouraged to accept the new bank notes as payment for the long term lease/use of their capital, in return would also be given long term low rate loans to fund their operations and a lower tax rate. Thus at a blow the cosmopolitans' chamber of commerce MONEY is tied to the well being of THIS nation not the 'world'. Those 'owners' that are not living citizens will be expropriated ... no foreigners will have control over our destiny. None.

And these policies require the following seed bed conditions --

A. The Media, Academic and Commentator Classes/Castes would need replaced with a loyal opposition that does not HATE the Ethnos and our ways. What the Nationalist cause needs most is academics that can take the place of the commie red diaper liberals that run the show in those institutions today. We need Nationalist Journalists, Commentators

and Academics who work to bring the working, middle and loyal upper class onto our side. My sense is that the current left wing witch hunter mentality will force many paloes and others onto ethnos island, making them very supportive as we simply SEIZE the media/academics assets and declare them outlaw -- IE beyond all protection of law. So be it. The 'parties' are very much the same in that they all agree that White is evil and diversity is good ... they are busy driving Whites into our grasp as we type. By a thousand little means they drive the White Man into our arms first and foremost hating him above all others. They destroy faith in their own 'equality' 'tolerance' 'inclusion' gibberish by such vicious intolerance toward even the most servile liberal males to say nothing of less subdued men of the Western Race to Ethno State's ultimate advantage. The two minutes daily hatred for WHITES, our past, culture and values is out bridge to power near term.

B. Realistically any of this to work long term without massive police and political repression – antifa and other radical leftists will need suppressed but that is long over due –To do this the Nationalist faction would need some of the Military Officer Corps, National State and Local Police, as well as members of the Intelligence community, on board with the world vision of an ethno state based on families in communities happy in our

heritage, hearths, homes. Sell them the vision of a non-diverse ideal that defy the liberal/Cultural-Marxist values of diversity, inclusion and tolerance, which tyrannize over their day to day lives. Bring them over by showing them the future is to be reborn like a great Phoenix among the PC Liberal rubble or be buried under the refuse that is modernity -- they are by and large WHITE MEN with the same long term ethno interests as us 'nazis' after all -- This will mean cadres that reach out to these communities promoting our narrative and poking holes in the PC Liberal world view at turns. Also very helpful would be to have: at least a rump faction of Congress to give the changes in policy and basic political orientation, that would be put through the veneer of Tradition and Weight of Authority such as they have; and a nominal national political presence to give the 'hand over' to our cadres and picked members of the army, police, and other nationally minded interested factions, the appearance needed to keep order; some media and academic power, from which to construct a narrative that gives the sense of continuity with our National History Cultural Values and thus legitimacy; validity even, to the end that ACCEPTANCE of the new order comes quickly and with minimal unrest. This means private organizations that teach nationalists by the scores about administering

people, resources and time; that give men the fire to be cadres such that they live breath and eat nationalism. Since in the end all this massive dream depends upon Nationalists ability to rule with some justice ability and a mind to the common good -- these are learned skills and arts to be mastered.

Results --

Short Term -- World gets upset. EU and Anglo Sphere stay on board, central and South America, as well as the Carribean are keep. China acting as proxy to the former elite here leads WTO in fomenting a trade embargo, in which India and most of the Middle East and Africa Join. Russia tries to ride the wave and waits to see who comes out in this initial jockeying.

America 2.0 can ensure ALL the Western Hemisphere remains in Monroe Doctrine Status and ensure its lines of access to Both Alaska and Hawaii -- these quick decisive actions will give unifying purpose to the new order. As a corollary Canada can be uncucked as well. Since we cannot have a cucked cannuck on the border to the North -- you can keep your weed. LOL.

Mid Term -- America does have food stocks and plenty of food reserves, couple this with the food that can be traded for from Central and South America and there need be no starvation -- in fact we could bring up the

general level of the Loyal S. and C. American Whites, which would help bolster our position and ensure we can keep the Oceans Divided to our advantage both East and West. We could maintain a reduced but substantial navy based at the Panama Canal simply annexing the zone, to ensure our defensive and strategic needs were met. UK Aus NZ are brought into more firm union of friendship and liberated from PC -- White Anglo/Euro will be the Policy from this day to the end of all days.

Long Game -- Our Nation Prospers. Our Cousin Nations prosper. As a collation we have perpetual dominion over our lands with all confidence. We all have a green clean golden age behind our nuclear wall, space defense and naval forces. Free from the world and its barbarian issues ... Georgia not Gaza ... London not Lebanon ... New York Not New Guinea ...

And then I woke up ... have a nice day y'all.

The Pet communists of the Western Media both the ANC and EFF are being allowed the legal power

to steal land and in the murder those that oppose them. Under all the legal babble it amounts to just as I say -- A theft like any other theft.

Folks the American left, and right, are in fact one party owned and operated by and for Wall Street (the Big Money Internationalists who in fact OWN this Slave Camp.) While we may openly have the appearance of a two party system, the fact that the same big money buys all significant factions that operate in politics, has ensured that we have a De Facto one party system. The people 'choose' nothing and merely SELECT from among candidates chosen for them. No matter which person wins this or that race over all the Moneybags win EVER SINGLE election as they

CHOOSE who would be running with their money donations. This is the reality. This single party system, is internationalist, and has absolutely no loyalty to the common majority American in any way shape or form, having as its stated goal the end of diversifying our nations --diversifying being a euphemism for less majority citizens, and more foreign barbarians, whose sole purpose in the country are to drive down wages, lower standards of living, divide the majority, dilute and destroy our unique identity, and thereby insurer that we can never vote our way out politically correct serfdom to the one party plutocrat money bag system, which will have destroyed all these things we love. The one party system will if allowed its

way, take our land, destroyed our heritage, break up our homes, and more generally make us homeless serfs, on the continent our fathers conquered. The one party system, both democrat and republican, promote political correctness and neoliberal economics, the democrats have an emphasis on political correctness and its social values, while the republicans place their emphasis upon neoliberal economics; however, they both to a lesser or greater extent support all political correctness and neoliberal economics.

#PC is #death for the #Western Nations

PC is Death for the West!

To my Leftist Fans and Supporters!

PC is Death for the West! Leftism is a mental defect! It makes people: Stupid, plain, homogenous and lame. It makes them worship death and seek their own end... the West under Liberalism has turned Western Man into the Panda of human history... so guilty He might continue on He is willing to give up His Ancestral home and his rich history to 'make amends' for crimes he has NOT committed... WE are the Panda of Human History... this is because leftism/internationalism have mentally and spiritually nattered our race, destroyed our families, cheapened all human interaction to the level of a market exchange, left our cities in ruins, raped our history, looted our heritage, imploded our industry and is soon to toss a match to the pyre so that what remains can burn

to ash all so that liberal hypocrites can feel good about making others feel bad about being born! And so the 'market' calf worshipers can charge for everything from birth until death. These two come as a set.

We told daily how are suppose to embrace 'globalization' ie being as poor as African natives, or at any rate how we WILL since it is coming no matter what.

And along with that come two other 'aspects' of this little social experiment:

The drive for cheap labor by international capital has lead to an alliance with the egalitarians by which 'diversity' is supported by both and by all allowed parties in all allowed public debates – it is a foundational dogma of PC

Diversity means = Replacement of YOURSELF by a foreign horde. Period.

To frame the debate the vocal outrage of the native

populations has been labeled as 'hate speech' as has ANY expression by ANYONE that rejects any of the following: Equality as a mystic truth; gender 'choice' as a fact; or the mythical 'same-sex-fambly'.

Hate speech = Truth about (insert PC dogma) nothing more... it is the means to ensure that ONLY the left-capitalist alliance support gets to speak while they pretend it is an open mic... Basically ALL speech is allowed but some is not allowed.

Thus they are telling you that you are to be replaced and that if you pipe up about this replacement process that you are full of 'hate' and cannot talk about the process further but will still participate – fully AND smile – from prison if need be Comrade. This last part is actual reality for many in the EU right now, who effectively cannot say boo to a minority without facing hate charges.

This is because all modern Leftists liberal PC Multicultists are Maoists in all but name... their 'little red' book is 'My two mommy/daddies' and 'How anything is equal to everything'.

This world view is custom crafted to destroy the west. It is meant to give the Fem-fag-minority brigade victory over you and yours the Rightful Son's of the Soil.

It is designed to ensure the defeat of Traditionalist populist and nationalist forces by internationalism using its two false 'arms' or parties which are themselves relics from the French Revolution, and who are both owned by the same money that backs PC against Us.

Reject the PC, and its MONEY MASTERS en toto, since those that embrace either eventually embrace the lose of homes, hearths, and heritage. And for what? For a babble? Are we the Indian tribes to be lured for trinkets?

The circus system above and the PC 'cult' of equality are kept in place by fear of key words like 'racist', 'homophobe', and the 'banning' of certain words from the lexicon as if the left is the authority to be saying or naying, not to mention judicious use of fines, character assassinations, and smear campaigns. The Media is fully on board with PC and is NOT an impartial reporter any more than the Soviet Media was impartial. The media will gladly single out a citizen for shaming if they cross pc's dogmas. The media is a weapon that uses words to wound our folk.

So let me say this simply:

Almost all the "ism" terms used by the media and academics are words coined by COMMUNISTS and/or Freudian Fruitcakes. Fruitcakes, whose work was largely paid for by Wall Street investor types for the final purpose of flooding the first world with third world people and thus to

balkanize its population so as to ensure control – diversity means LESS WHITES and more coloreds, minorities and the rest.

The PC freaks see this as part of their cult of guilt and the Wall Street scam as a means to increase ROI short term.

Nobody will every say: Boy we need more rednecks here; it is too damn Cambodian. You had best bet your bottom dollar on that fact! And that is because Rednecks would demand TOO HIGH A WAGE!

These rich traitors that fund this internal displacement/Moist brainwashing are also 'Cadillac socialists' who will never see the effects of their treason to the nation, and so who can claim it as good – so long as they are winning. Otherwise they run to government buy some laws and then keep on winning. All the while pretending that the Government is NOT assisting them in winning at

all.

Winning economically but losing their soul;
meanwhile their never ending greed is forcing the
rest of us to band together, lose the individualist
fantasy, and remember that we all are part of a
group called a FAMILY that is part of a larger
group called a Nation which is NOT a club but a
blood grouping.

PC thinks it will tell this newly awakened Family of
Family that we have to accept their bastard imports
... We shall tell them to Eat Cake.

If you think of Louis totally clueless in his Palace...
you are not far off the mark.

* Hugs and Kisses*

Sincerely,

Reality Called and it wants its Two Dollars back
from PC Multicult Modernity!

ANC history of violence and mayhem

The ANC and its members were officially removed from the US terrorism watch list in 2008.

On

8 April 1960, the administration of Charles

Robberts Swart, banned the

ANC and forced the party to leave South Africa.[5]

After the ban, the

ANC formed the Umkhonto we Sizwe (Spear of the Nation) to fight against

apartheid utilizing guerrilla warfare and sabotage.

uMkhonto we Sizwe

(abbreviated as MK, Xhosa pronunciation: [u 'mkʰonto we 'sizwe], meaning

"The Spear of the Nation") was the paramilitary

wing of the African

National Congress (ANC) ... its mission was to fight

against and topple

the South African government and the ruling

National Party.

After

warning the South African government in June

1961 of its intent to

resist ... MK launched its first attacks against

government

installations on 16 December 1961. It was

subsequently classified as a

terrorist organisation by the South African

government and the United

States, and banned.

Bake The Cake is Lawfare

The Left are control freaks ... they only care if they are in charge. Communism killed at least 150 million up to no less than a ¼ billion folks ... Fascists ... maybe 20 million top end. Let me see here. Who causes deaths – Communists. Who wants to control the narrative today – communists! Who want to ‘reeducate’ us Unwashed WHITES – Communists. And it shall start with a baker. Next up the Butchers, Candlestick-makers, and any other lawful normal working folks COMMIES get in their swines eye.

Just to keep our eyes on the ball – Bake The Cake

BIGOT = The Law being used as a Weapon against
Normal People = LAWFARE which is warfare
using LAW.

They love doing this against us 'hateful,
reactionary' people. They do not seek Justice –
they seek power. Pure Power.

First Principles:

Ideas are the central force in human history, not
matter, not modes of production, which are only
the material upon and the means by which human
ideals ie will operate in reality. Human need
generates a will, which puts labor to work upon

raw materials with capital, to produce wealth. Thus Men make tools; tools do not men. Tools make money; and both serve Men.

Men band together by nature. Man is as Aristotle says, 'the political animal'. It is his nature to form combinations for the purpose of ensuring general survival of the kind. They do not choose to do so, it is just that each and every person is born into a group and from there becomes a member of other groups, which form up into groups that have internal hierarchies ,in all indo-european societies. The result is that each lives better than he could if he lived alone against nature.

The People are the Sovereignty. The people are both a states foundation and its animating spirit. Their collective world view is its world view, and in the end their consent is the permission it has to act. Hence the state's existence is predicated upon the continued support and input of those governed. The People are the polity. They are sovereign and the highest earthy judge of all matters political. They can in theory assign this to any number of combinations of offices or persons, but they still remain the base of the pyramid.

Life, liberty, and the pursuit of happiness are meaningless 'rights' without, a corresponding right to livelihood, hearth and substance to thus ensure

'life' against the vicissitudes of reality. Thus the ideal is to ensure as general an ownership of land and/or ownership stakes in capital ventures by the masses which will provide the nation's labor, as may be achieved to ensure the meaningful application of the above 'rights' to human life and not incidentally a more generally diffusion of wealth thereby.

The means to this general end is Law. Law is the will of the nation. Law is supreme within its domain, but should be limited to the least amount of domain that will keep general good order and ensure the conditions outlined above. Generally less laws equals more justice to the many and less

legalism by the few, and the less room that judges have to insert their opinions into the operations of law, the better.

No special law is valid, nor does any law that gives special advantage to one private party over another have ANY legal effect, ever. A law not enacted properly has no effect, and is NO law at all.

Equality before the law, should mean ONLY that NO persons get special privileges at law and everyone gets a minimum standard of treatment before magistrates. Nothing else at all. Nor should it ever be taken to mean that any legal being is equal to a living man.

Any act contrary to law by any governmental agent or employee is tyranny. All acts without power of Law are tyrannical at their inception. Any state official that acts without the positive sanction of law is a tyrant and may be resisted with force by all citizens, and any person that attempts to enforce tyranny by what ever means forfeits his life.

Tyranny is NEVER lawful nor just, all may kill a tyrant. No one is bound to the will of a tyrant.

As the tyrant so the may citizens may dispose of criminals, who may be stopped by any citizen with

any amount of force needed to protect both his own person and the general common good. No citizen is liable for a crime in stopping criminal acts.

Men make weapons to defend their interest in both their own things and in the general order about them as such: No law outlawing the keeping of private weapons is to have effect.

Family as basis for Hierarchy, Community and Nation

Just a middle aged man babbling for several minutes about about Family, home, hearths, heritage, life, happiness, duty, and many other things. Community. Nation. We will take out the third chapter of our PDF

and do a bit of a reading -- it is often not looked at enough since it outlines FAMILY as a cell upon which the National Life rests.
